## London Ambulance Service website goes live

Case Studies

The new content managed **London Ambulance Service website (opens new window)**, designed and developed by Connect, has gone live.

Microblog

Blog

The bold design and well-structured information architecture provide a showcase for the Trust and is aimed at attracting a new wider audience. The site also offers a range of new ways for the Trust to engage with their website audiences.

Related Items

An innovative 'Major Incident' feature allows the Trust to instantly switch the homepage from the standard mode to a pre-prepared Major Incident site homepage with sections of information for the public, staff and health professionals.
