Web hosting

Connect wins hosting contract for National Audit Office

Connect is delighted to announce its success in recently being awarded a 3 year contract with National Audit Office to provide web hosting services.

The solution comprises a fully managed, dedicated infrastructure and hosting of the Immediacy content management system. The service is delivered from our ISO 27001-accredited secure data centre and supported by robust, off-site disaster recovery.

The National Audit Office is headed by the Comptroller and Auditor General (C&AG), and is one of the United Kingdom's main public sector audit bodies. Its mission is to help the nation spend wisely, through the promotion of the highest standards in financial management and reporting, the proper conduct of public business and beneficial change in the provision of public services.
